

WR Sports PE STATIONARY MOUSE MAZE

1. Find a clear area i.e. Table, floor etc.

2. Using, Pencils, Crayons, Utensils, Cutlery, etc. Join them together (as if they were walls) to create a maze. This is really fun to build with older siblings and parents! You can make it as big or small as you like! Make sure you maze has a beginning, a centre to get to and then a separate exit (not the same place you came in from).

3. Now, can you trace through the maze to get into the middle and then out the other side using your finger? You can pretend your finger is a mouse, and your hunting for CHEESE!

4. Firstly, Can you find the way out on your own?
- This problems solving and forward thinking is excellent in any game situation!

5. Secondly, now you know the way, can you **remember it** and do it again? This time without touching any sides!

6. Can you and your helper make the maze slightly narrower? Its going to get tricky, remember not to touch the sides!

-Lets work on these fine motor skills.

7. Can you do this with **both hands**?

8. Lastly, can you scatter objects across the maze and try to collect all of them? Lets get this hungry mouse as much cheese as possible!
