

WR Sports PE **CREATING HOUSE MAPS**

Find us on YouTube for extra help- WR SPORTS LTD

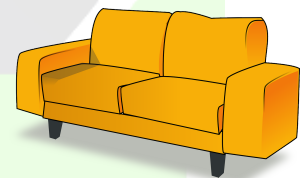

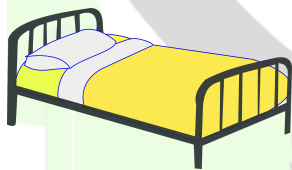

1. Using a pencil or pen, draw a map/ floor plan of your house, just one floor is fine. Focus on room shapes and sizes rather than what's in them!

(If you need help with this we have a video on youtube for you to follow!)

It might look like this!

2. After you have drawn the outline of your house, you may add finer details. I.e. Furniture

3. Find 10 things to use as treasure. We have used Post-it notes with a big X drawn on them!

4. As you hide the treasure around the house, mark where you have put them on the map!

5. Give the map to someone in your house, and challenge them to find all of the treasure!

How did they get on?

EXTRA CHALLENGE!!!

Can you draw a blank map of your house, without any crosses on it and give it to someone that you live with!

They can then hide all of the treasure and add crosses onto the map for you to find!

You can use this piece of paper to draw on...
