

# L.O- To identify near doubles in addition calculations

I can use my knowledge of doubles or the 2 times table to solve addition calculations

I can check my answer using my knowledge of doubles

I can round to the nearest multiple of 10

## Example

$$5 + 6$$

$$\text{Double } 5 = 10$$

$$10 + 1 = 11$$

## Banana challenge

1)  $2 + 3 =$

2)  $3 + 4 =$

3)  $6 + 7 =$

4)  $4 + 5 =$

5)  $10 + 11 =$

6)  $11 + 10 =$

## Plum challenge

1)  $12 + 13 =$

2)  $21 + 20 =$

3)  $21 + 22 =$

4)  $32 + 31 =$

5)  $30 + 31 =$

6)  $41 + 42 =$

7)  $40 + 43 =$

8)  $50 + 52 =$

9)  $53 + 51 =$

10)  $43 + 41 =$

11)  $53 + 50 =$

12)  $50 + 55 =$

## Grapefruit challenge

1)  $101 + 102 =$

2)  $203 + 201 =$

3)  $404 + 401 =$

4)  $501 + 503 =$

5)  $1003 + 1001 =$

6)  $2004 + 2001 =$

7)  $28 + 32 =$

8)  $39 + 41 =$

Now see me for  
the Super Challenge!
