If you are committed to enriching and improving the lives of young people with Special Educational Needs and Disabilities, if you would like to join a team which delivers an exciting and diverse curriculum, and if you want to work in a vibrant and dynamic Special Academy within a thriving and successful Trust – we want to hear from you.

Orion Academy is seeking to appoint a talented and motivated Teacher of Construction to deliver construction and vocational learning across the school, and notably in KS4. This is an exciting opportunity for a teacher or instructor who has experience of teaching construction, allied trades, mechanics, engineering, or design and technology. You will deliver varied and effective lessons to small groups of students to achieve a range of qualifications in our new and purpose-built vocational learning facilities. You will enjoy seeing your students flourish and grow as you provide practical, flexible, and personalised opportunities for students to learn, achieve and succeed.

You will be keen to develop links with local employers from construction and related industries and to support enterprise initiatives to enable pupils to get a flavour of the world of work. You will have excellent knowledge of Health and Safety and the preparation of risk assessments.

All teachers at Orion Academy, irrespective of specialist subject, may be asked to teach throughout the school to meet needs. Students are taught through a differentiated and bespoke curriculum designed to enhance academic and social development, with a strong emphasis on independence skills. The curriculum delivers a thematic, cyclical approach to provide a meaningful and interesting context for the development of basic skills, knowledge and understanding while providing the relevant National Curriculum requirements.

The Academy provides support for the social, emotional and mental health needs of students through a qualified and skilled therapeutic team, underpinned by a pastoral support team. The offer to students is enhanced by additional specialist therapies and interventions.

Our focus is to recruit teachers who are keen to grasp the possibilities offered by the Academy where practice is based on SEN pedagogy and evidence: who would relish getting involved in exciting national professional development projects, and who want to work as part of a multidisciplinary and specialist team.

Teaching and support staff actively inform developments and collectively identifies the best ways to improve the school further. Our unique features include:

- A curriculum model which is designed around our students
- Individual learning pathways which teach the way our students learn and moves away from the “one size fits all” approach
- An ethos of Restorative Approaches, mutual respect, and social responsibility which creates an inclusive and nurturing community
- A flexible, innovative and student-centred approach, which supports not only excellent teaching and learning, but also the emotional and mental wellbeing of students and their individual needs.
