## Tula Class

A highlight from Tula class this week was during their English lessons where they engaged brilliantly with an article that summed up recent current events news. Students read aloud to each other and we had discussions about the content of the article and how this made us feel. The class felt they needed more information on certain topics which led to a much deeper conversation about current geopolitical issues and the historical factors surrounding them.

## Family Fun Day - Saturday 28th June 2025

Our Family Fun Day is fast approaching and will take place on Saturday 28th June from 11.00 - 2.00.

Please find some further information below in preparation for the event:

- There has been a recent change in parking restrictions in Iffley and some roads that surround the school are now double yellow lines. There will be limited parking available at school so please travel via public transport if possible.
- Please be considerate of our neighbours when arriving and leaving and please do not block access if parking in the surrounding area.
- Dogs and smoking are not permitted on school site.
- Children must be supervised by a parent/carer throughout the fun day.
- Please be aware that photos will be taken during the event.
- Last year's event was extremely popular, to avoid disappointment we advise arriving at the beginning of the event.
- In order for us to secure the funding for this event we are required to send some student information so we are able to secure this funding. This will include student names and date of births. Please contact reception if you need any further information.
- Tickets will be sent home to parents/carers closer to the event.

## Thames Valley Police

Thames Valley Police have recently produced two videos in relation to safeguarding which is aimed at parents and carers. The theme of the videos are:

- Children exploitation
- Online harm.

As our pupils have additional needs and access to mobile phones it is really important to highlight the risks, as quite often our students have a greater awareness of technology than their caregivers and are three times more likely to be targeted due to their additional needs.
