

Spring 2 - 2025/2026

Dear Parents and Carers,

Welcome back! We hope you all had a wonderful and restful break. We are so excited to welcome the class back for a brand-new term of learning and adventure.

This term, our exciting topic is 'Exploring Scandinavia'. In **English**, we will begin by diving into the epic legend of Beowulf, using its dramatic settings and characters to inspire our own powerful descriptive writing.

In **Maths**, we will strengthen our skills through number operations, fractions and statistics, linking our learning to real-life data and problem-solving.

Our **Science** will be full of movement as we investigate Forces, exploring pushes, pulls and friction through fun, hands-on experiments.

In **Geography**, we will journey to Scandinavia, studying its stunning landscapes, unique way of life, and location. We will even bring a taste of our topic into the classroom by **cooking** some delicious Scandinavia-inspired delights in our cooking lessons.

A key highlight this term will be our return visit to **Blenheim Palace** to be fully immersed in the joys of spring, planting, and growth.

This trip will take place on **Wednesdays**. Please ensure your child wears suitable outdoor clothing and footwear for these visits. Please let me know if you need any support with this.

We will also have **PE** on **Thursdays** with Mr Heap so please pack a PE kit if possible, prioritising a change of T-shirt please. Deodorants are welcome also we have a class deodorant which the boys enjoy using. We are beginning to have more conversations regarding hygiene and body changes so bringing a change of clothes would align with this well.

The Britto class team will again be myself, Mr Ellis, Miss Dancer and Miss Forster.

We cannot wait for another fantastic term of discovery and fun together!

Warm regards,

The Britto Class Team
